Kit 3: Line Follower

Circuit:Steps:

1. Go to Menu, Programming, Python 3 and then File, New File.
2. Press CTRL+S on your keyboard.
3. Save it as 5-linefollow.py
4. Type:

```
from edupy import *  
  
line_follower()
```

Print off [linecourse.pdf](#) for a track to follow.

5. Press CTRL + S on your keyboard.
6. Press F5 on your keyboard.
7. Your program will now run. Press CTRL+C to stop it running.
