

1. Go to Menu, Programming, Python 3 and then File, New File.
2. Press CTRL+S on your keyboard.
3. Save it as 2-blink.py
4. Type:

```
while True:
    all_on()
    sleep(1)
    all_off()
    sleep(1)
```

5. Press CTRL + S on your keyboard.
6. Press F5 on your keyboard.
7. Your program will now run. Press CTRL+C to stop it running.
